ABOUT ACCM AND CAREMANAGEMENT JOURNAL

The Academy of Certified Case Managers (ACCM) is the nation's largest membership organization exclusively for certified case managers and devoted entirely to improving case management practice through education.

CareManagement is the official journal of the Commission for Case Manager Certification (CCMC), the Academy of Certified Case Managers (ACCM), and the journal of the Case Management Society of America (CMSA). The journal is published 6 times a year, with a total circulation of more than 54,000. Each issue contains 3 primary articles pre-approved by CCMC, CDMS, and the California Board of Registered Nursing, including articles to meet the new ethics requirements.

Board-Certified Case Managers (CCMs) need 80 CEUs every 5 years for recertification. For the past 25 years, *CareManagement* has enabled our members to maintain their certification by offering a source of ongoing education through home study.

JOURNAL FEATURES:

- **Topical Supplements:** Published between standard issues of the journal, educational *CareManagement* supplements go in-depth on specific topics of importance to case managers and offer complimentary CCM, CDMS, and nursing CEUs throughout the year.
- **From the Editor-in-Chief:** Editor-in-Chief Gary S. Wolfe champions case managers and calls on them to improve patient care through education, involvement, and teamwork!
- **From the Executive Editor:** Executive Editor Catherine Mullahy brings case managers information on new developments and thinking about professional case management.
- **Legal Update:** Relevant legal rulings that pertain to case management practice are provided by Elizabeth E. Hogue, a health care attorney and consultant in Washington, DC.
- **LitScan:** The editor reviews medical literature and reports abstracts that are of particular interest to case managers in an easy-to-read format.
- **PharmaFacts:** This department features new drugs just approved by the FDA. Indications, studies that led to approval, contraindications, and adverse effects are included to help case managers in their clinical practice.

“ A well-prepared case management workforce is essential to better care, lower cost, and healthier patient populations. Thanks for the CE opportunities. Maintaining my certification has become a valuable learning experience.

—M.H.S., Columbia, SC

DELIVERING YOUR MESSAGE TO CASE MANAGERS—EMPOWERED DECISION MAKERS

Who are today's professional case managers?

Professional case managers are in a position to recommend the products and services you provide.

They...

- are patient advocates and work to achieve successful outcomes
- interact with patients, physicians, families, allied medical personnel, and suppliers of health care goods, services, and equipment
- provide patient and family education relating to the patient's condition and therapies
- foster adherence to pharmaceutical and physical therapeutic plans
- answer questions relating to side effects, potential adverse reactions, and other patient and family concerns
- are involved in reimbursement processes
